Twenty years in digital media as a senior motion designer, editor and social lead: Warner Music Group, then seven years at Fullscreen animating and cutting daily social for Disney, Marvel, Sony and AMC. For the last two years I've built with AI every day, with **Claude and ChatGPT as my engineering team**, shipping **twelve sites and products end to end**: brand, prompts, code, APIs, database and deploy. Now **Director of Digital Operations** at Evolution24 Properties.

20 YEARS IN DIGITAL MEDIA	**12** SITES & PRODUCTS SHIPPED	**1B+** GIPHY VIEWS	**WEBBY · CLIO · SHORTY** AWARD-WINNING SOCIAL VIDEO

01 · AI ENGINEERING

CLAUDE AND CHATGPT ARE MY ENGINEERING TEAM.

BUILD
Sites, apps and APIs engineered with **Claude Code** and **ChatGPT**: architecture, code, review, debugging and deploy across React / Next.js, Node, Rust and Postgres.

PROMPT
Prompt design for production features and agent workflows: system prompts, structured output, multi-step agents, and a human signing off before anything ships.

LLM FEATURES IN PRODUCTION
irl.ing: Claude reviews every loop against the community rules before it is stored. **Scrawl:** Claude drafts a full alphabet from three hand-drawn letters.

ON-DEVICE AI
MediaPipe segmentation running live on the GPU in **Faraday** (browser) and **Glitch Pixel Studio** (Android): faces and bodies masked in real time, with zero cloud.

APIS & INTEGRATIONS
Anthropic and OpenAI APIs; REST endpoints and webhooks for Shippo, Google Play Billing, Microsoft Sentinel and Vimeo; the cbuy partner API.

WORKFLOWS & AUTOMATION
Enquiries routed into Google Workspace and a live lead sheet; sync jobs for gianniarone.com; music videos cut by code to beat grids and timed lyrics.

on-site, full time

EVOLUTION24 PROPERTIES NOW

Director of Digital Operations

- Web, social, email, photo, video and brand for Evolution24 and the eleven properties it manages across Rochester, Syracuse, Manlius and Geneva, with monthly lead-source and cost-per-lead reporting to ownership.
- Designed and engineered **charlottesquareroc.com** with Claude and ChatGPT for a 72-residence LEED Gold building: technical SEO, structured data, lead capture, analytics, fair-housing compliance. Launched the evolution24.net corporate site.
- Set up the company Google Workspace, routing tour requests and site enquiries to the right inbox and into a live lead sheet leasing works from.
- Shoot units, amenities and drone; photo-document every job, the daily record that became Round24.
